

Ufford Arts Festival

Purpose

To contribute to community relations, cohesion and wellbeing in Ufford and neighbouring communities by engaging people in principally local cultural activities and arts festivals. It will aim to build a diverse and inclusive cultural experience, celebrating the wider arts and inspiring the whole community.

In this context “principally local” means that it will draw on local talent and expertise in and around Ufford in the first instance while recognising that it may look more widely in Suffolk and beyond on occasions.
